

What North American mission leaders are saying about the *Mission Handbook*:

“No other source comes close to matching the *Mission Handbook* for comprehensiveness, reliability and usability. EMIS is to be congratulated and thanked for keeping current a reference tool that traces its origins to MARC World Vision more than half a century and twenty editions ago.” – **Jonathan Bonk**, executive director, Overseas Ministries Study Center and editor, *International Bulletin of Missionary Research*

“The *Mission Handbook* serves two significant purposes in my life and ministry. First, it is my up-to-date reference guide telling me the ‘who, what, where and how many’ details of North American missions. Second, it an essential resource we in North America need in order to understand more fully where we fit in God's global purposes.” – **Paul Borthwick**, senior consultant, Development Associates International

“As a professor of global evangelization, the *Mission Handbook* has been a tremendous resource for me and my students. This is a one-of-a-kind resource that is a ‘must-own’ for every seminary, mission professor and mission agency.” – **Howard Foltz**, president of AFMA and professor of global evangelization, school of divinity, Regent University

“Information is most helpful when it is carefully gathered, clearly reported and traced over time. The *Mission Handbook* does all three. That is what makes it the premier source of information about the status of North American missions and the best way to monitor trends.” – **George Hunsberger**, dean of Journey, a center for the Church's learning, Western Theological Seminary

“Global mission efforts are increasingly multifaceted initiatives. The *Mission Handbook* is the single source that I can go to for quick and thorough access to information for the networking and planning so necessary for mission effectiveness.” – **Byron Klaus**, president, Assemblies of God Theological Seminary

“I receive a broad variety of mission questions, many which can be answered directly from the *Mission Handbook*. How much money do North American churches give to missions? Is the number of missionaries increasing or decreasing? With the *Mission Handbook*, church and mission leaders have a whole mission encyclopedia at their fingertips.” – **David Mays**, nationally known missions consultant and workshop leader, formerly with APMC

“The *Mission Handbook* provides a unique combination of accessible and comprehensive information concerning the North American mission effort. It is a must for every mission leader, educator or researcher.” – **Steve Moore**, president and CEO, EFMA

“This one-volume *Handbook* is the singular source of data and statistical information on North American mission agencies that a person can reference.” – **Marvin Newell**, executive director, IFMA North America

“As a mission executive, I wouldn't be without the most current edition of the *Mission Handbook*. The comprehensive listing of agencies with all the key information on each and the charts on mission activity and resources give me a pulse on global mission activity today.” – **Susan Perlman**, associate executive director, Jews for Jesus

“There is not a week, and often not a day, that I do not refer to the *Mission Handbook*. It is an indispensable networking tool. The contact information, purpose statements, basic orientation,

distribution and numbers of workers and financial resources for the hundreds of agencies listed give a quick grasp of the particulars. The summative opening chapter gives an excellent understanding of the big picture of North American sending agencies. This is the world of missions from North America at your fingertips.” – **Mike Pocock**, senior professor of world missions and intercultural studies, Dallas Theological Seminary
